

How can you move a wave of the sea?

*"Even the winds and the waves obey him!"*  
~ Matthew 8:27

Contemplate the concept of the wind and the wave as elements of our circumstance over which we have little or no control; yet these circumstances are subject to a plan that encompasses a picture greater than our own perspective. We make these circumstances what can be called "Icons of Prominence," unholy icons that preoccupy our worship.

Using clay I attempt to look past circumstance and create "Sketches of Preeminence." I hope that my own story is an expression of faith as I step out of my comfort zone and awaken to live walking by the Lord's bidding.
